

Education Day

August 31, 2004

Please join us for the World Renewable Energy Congress (WREC) first-ever Energy Education day!

WREC is the world's premier conference on renewable energy and is held in a different country each year. In August, we will be hosting this event right in Colorado.

On Education Day,

we will welcome Colorado students and educators to enjoy exhibits from around the world and attend sessions about renewable energy such as wind power, solar power, biomass, and geothermal energy. The sessions will deliver the latest in cutting-edge technologies and information that can be shared in the classroom.

Please join us for this once in a lifetime opportunity!
For more information, please contact Sara Huntley at
303.275.3080 or sara_huntley@nrel.gov.
